

KATERYNA KOVALENKO

UI/UX DESIGNER

PROFILE

UI/UX Designer with hands-on experience across the full product design cycle — from user research and information architecture to high-fidelity prototyping and developer handoff. Designed 5 mobile and web products in healthcare, wellness, and edtech, including a research-driven app based on insights from 800+ users. Skilled at translating complex user needs into intuitive, accessible interfaces using Figma, design systems, and WCAG standards.

PROJECTS EXPERIENCE

99 Problems — Mobile Support App for People with MS 2025
Product Designer (UX/UI) HealthTech · B2C · Mobile

- Designed information architecture and navigation from scratch: 4 core sections, 6 Home categories (news, life stories, MS info, events, help, about the team), and 2 quick-access tabs (hospital finder, MS medication directory) — validated through a survey of 811 respondents across 2 segments: people with MS and their caregivers.
- Structured the “Diary” as a single-screen daily check-in (symptoms, flare-ups, medications, reminders), reducing cognitive load.
- Improved accessibility using WCAG 2.1: contrast, touch targets, and screen reader support.

MotiMich — Motivational Task App for Kids and Parents 2025
Product Designer (UX/UI) EdTech · B2C · Mobile

- Designed user flows and UX solutions for children (task completion, rewards) and parents (monitoring, settings), validated through user research and scenario analysis.
- Reduced onboarding complexity by simplifying first-time flows to 3 steps and applying child-friendly UX principles: large touch targets, intuitive microinteractions, and progressive disclosure.
- Built a UI kit in Figma with reusable components, interaction states, and variables to ensure consistency and support developer handoff.

EcoTracker — Sustainable Lifestyle Mobile App 2024
UX/UI Designer GreenTech · B2C · Mobile

- Delivered full UX/UI design from scratch (5 sections and onboarding) by defining structure and key flows based on user research.
- Improved clarity of environmental data by turning CO₂ tracking into a personal dashboard with goals and benchmarks through data visualization.
- Increased user motivation by integrating financial benefits into UX (savings in action cards and flows), based on insights from interviews and surveys.

EDUCATION

2007 - 2010
TRANSCARPATHIAN ACADEMY OF ARTS

- Painting Department

2024
IT SCHOOL GOIT
UI/UX Designer

SKILLS

Research
User Research, Usability Testing, CJM, JTBD, Personas, Surveys & Interviews, User Flows

Design
Wireframing, Prototyping, Information Architecture, Interaction Design, Design Systems, Auto Layout

Visual Design
Composition, Grids, Typography, Color, Iconography

UX Writing
Microcopy, Onboarding, Content Design, Marketing Copy

Accessibility
WCAG 2.1, Color Contrast, Screen Reader-Friendly Structure

Product & Collaboration
Agile/Scrum, Cross-Functional Teams, Developer Handoff, iOS/Android Guidelines, System Thinking

LANGUAGES

ENGLISH Intermediate (B1)
UKRAINIAN Native

MindFulMood — Psychological Support Platform2024

UX/UI DesignerHealthTech · B2B2C · Web

- Designed UX for two user groups (therapists and clients), separating flows to simplify access to services and tools.
- Delivered a responsive web platform (landing, catalog, therapist profiles, tests, FAQ), ensuring usability across desktop, tablet, and mobile through a flexible structure.
- Built a shared component library in Figma, improving consistency and speeding up developer handoff.

A Kids Place — Childcare Website Redesign2024

UX/UI DesignerFamilyTech · B2C · Web

- Improved information discovery for parents by restructuring navigation and simplifying content hierarchy.
- Modernized the outdated interface with a warm, family-friendly visual language to increase trust.
- Optimized page structure and UX flows for faster access to key information and services.

CERTIFICATIONS & PROGRAMS

2026

- Google AI Professional Certificate (7 courses) — Google / Coursera
- AI Fluency: Framework & Foundations — Anthropic
- AI Fluency: AI Capabilities & Limitations — Anthropic
- Claude Code in Action — Anthropic
- Claude 101 — Anthropic
- Introduction to Claude Cowork — Anthropic

2025

- Google AI Essentials (5 courses) — Google / Coursera
- Google Prompting Essentials (4 courses)— Google / Coursera
- Women for the Future Mentoring Program — UN Women / Happy Monday
- БУДЬ/BE Mentoring Program — INSCIENCE / Nova Ukraine
